

Community Habilitation

“We energize people with disabilities, individually and within communities, to lead independent and fulfilling lives through innovative services.”

Southeast Works

Community Habilitation

Community Habilitation (At-Home) provides instruction and assistance to individuals in all aspects of daily living skills. The trainers design a plan specific to the individual's needs, so that they can become as independent as possible.

Supports may include:

- Cooking
- Housekeeping
- Budgeting
- Healthy Living Skills
- Community Mobility

Eligibility

All persons with developmental disabilities who are Home and Community Based Waiver enrolled through the NYS OPWDD.

ISS/ISE

Individual Service Environments (ISE): This is an option that supports people living in the community. The staffing component assists individuals with basic financial transactions, housekeeping skills, cooking skills, transportation navigation as well as personal planning. Assistive support monies may be available for individuals who may not be able to afford their own apartment.

Individual Support Service (ISS): This is an option for individuals who don't require any staffing assistance. This is strictly a funding opportunity for individuals to receive rental assistance which allows them to live in the community independently.
